

## Press Release

### **SUPER SUNSCREEN TO REVOLUTIONISE BILLION DOLLAR SUNCARE INDUSTRY**

Multi award winning second skin technology company, Microskin, is about to launch a groundbreaking sunscreen which will revolutionise the billion-dollar sun protection industry.

Sunseal is a product using Microskin's patented technology, which has already forged a successful international franchise, through the camouflage of skin affected by burns, scars, birthmarks and other debilitating conditions.

Microskin director, Barry Lowndes, says Sunseal will outlast any other sunscreen on the market and will shake up the industry worth an estimated \$30 billion worldwide of which sunscreen accounts for \$6 billion.

Microskin will be holding investor demonstrations on Thursday the 12<sup>th</sup> of March at their Brisbane clinic, 271a Rode Road Wavell Heights Brisbane Qld Australia.

To attend please contact James Skinner at [james@steppingstoneequity.com.au](mailto:james@steppingstoneequity.com.au) or phone 0409 875 698.
